Features

HOW IT WORKS ★★★★★

- Sensors Collect Data
- ESP32 Processes in Real Time
- Dashboards & Alerts Generated

KEY FEATURES ★★★★★

- Real-time CO_2 & PM2.5 tracking
- Emission threshold alerts
- Multi-sensor support
- Works offline/online
- ESG compliance assistance

"IoT-Powered Carbon Emission Monitoring for Smart Industries"

Emission monitoring setup (ESP32 with factory/fleet background)

▸ www.carbontally.com ☎ 123-456-7890

Did you know?

Carbon emissions from industrial sources contribute over 70% of local air pollution and climate-related damage. Smart monitoring can reduce it drastically.

6 Reasons Why Every Industry Needs CarbonTally

★ **Compliance & ESG Goals**
Meet government regulations & sustainability targets with ease.

★ **Reduced Operating Costs**
Optimize fuel/equipment use with real-time emission data.

★ **Public & Investor Trust**
Transparent reporting builds brand value and stakeholder trust.

★ **Safer Work Environment**
Early warnings reduce health risks from air pollutants.

★ **Data-Driven Decisions**
Smart dashboards allow informed planning and equipment usage.

★ **Carbon Credit Potential**
Track reductions to claim valuable carbon offset credits.

About Us

CarbonTally is an affordable, IoT-based carbon emission monitoring system. Built with ESP32 and advanced sensors, it helps industries detect, reduce, and report their carbon output in real time. Designed for reliability, simplicity, and scalability.

Our mission: Empower businesses to become sustainable — affordably and intelligently.

Our Capabilities

☑ **SENSOR-BASED EMISSION DETECTION**

CarbonTally uses advanced sensors to track CO_2, PM2.5, NOx, CO, VOCs, and more in real time— ensuring accurate, reliable emission monitoring for any industry.

☑ **PLUG-AND-PLAY ESP32 SYSTEM**

Works instantly with built-in support for offline use and cloud syncing.

☑ **REAL-TIME DASHBOARDS & ALERTS**

Monitor emissions live, receive threshold alerts, and generate reports.

☑ **E THRESHOLD ALERTS, AND GENERATE REPORTS.**

Manufacturing, Logistics, Energy, Construction, Retail, Chemicals, Agriculture

Monitor Your Emissions — Get Started Today

Start From ₹1000

Basic Monitoring Package — ₹1000

Perfect for SMEs or single-site monitoring. Includes:
- Real-time CO_2 & PM2.5 tracking
- 3 Sensor types
- ESP32-based embedded software
- Alerts on emission thresholds
- Dashboard integration

Advanced Carbon Suite

Designed for enterprises & smart industries. Includes everything in Basic, plus:
- GPS integration for fleets
- Up to 9 sensor types
- Dashboard + Firebase/Blynk sync
